I solidi geometrici

- Collega con una freccia ogni solido di rotazione alla figura piana che lo ha generato.

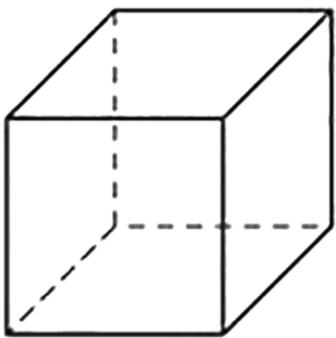

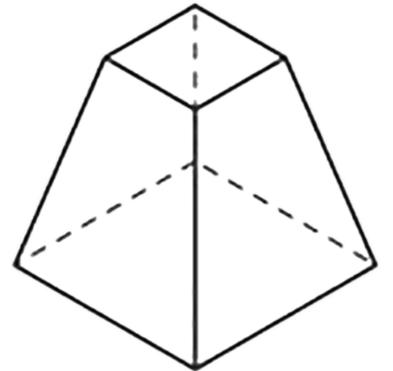

I solidi geometrici

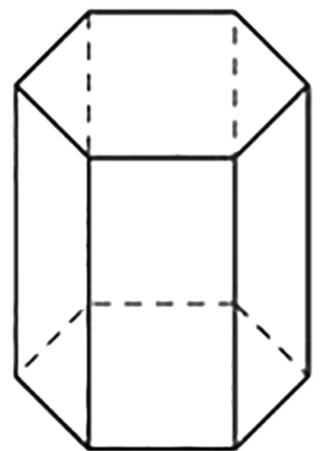

- Evidenzia e collega con una freccia almeno un vertice, uno spigolo ed una faccia di ogni poliedro.

SPIGOLO

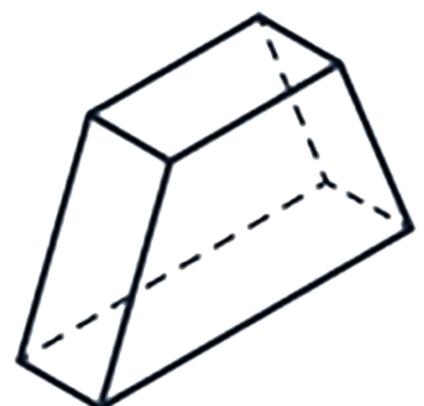

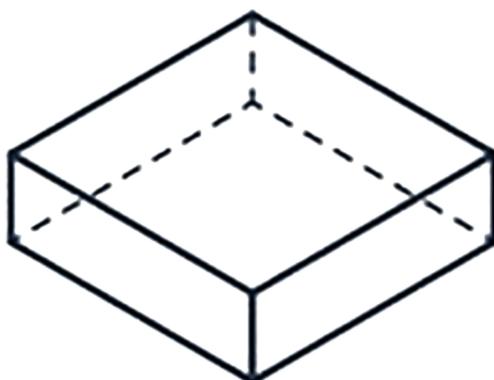

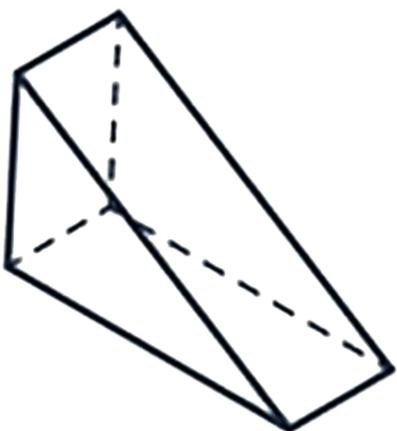

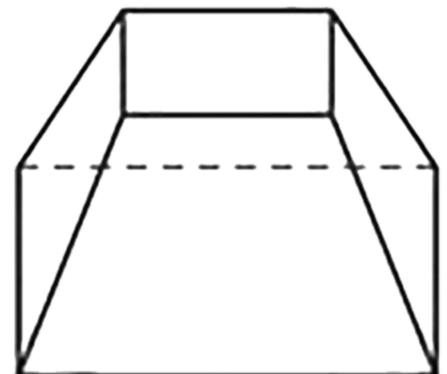

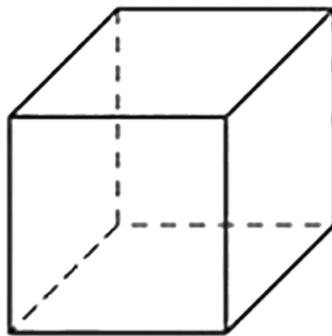

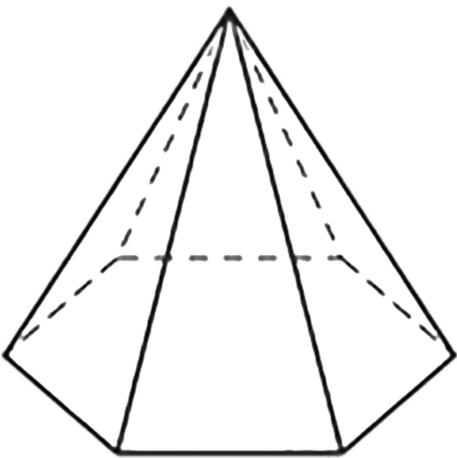

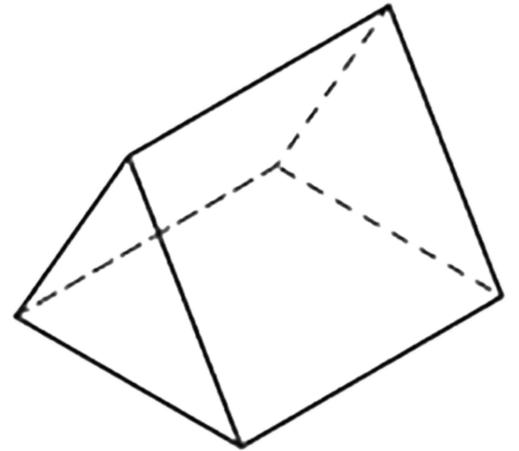

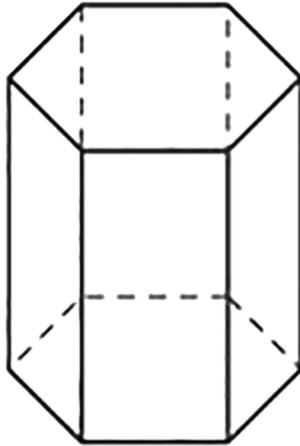

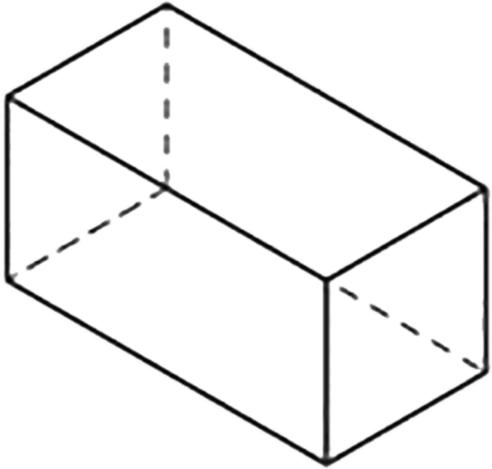

FACCIA

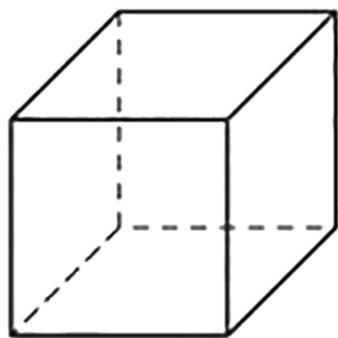

I solidi geometrici

- Nei seguenti poliedri ripassa, dove è possibile, con il colore rosso la **lunghezza**, con il blu la **larghezza** e con il verde l'**altezza**.

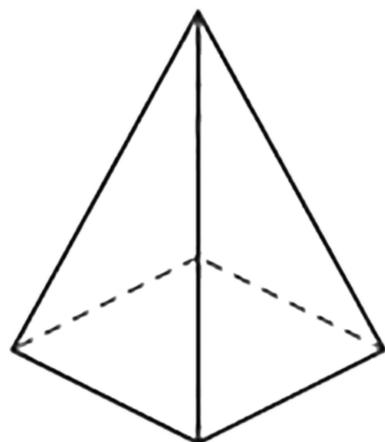

I solidi geometrici

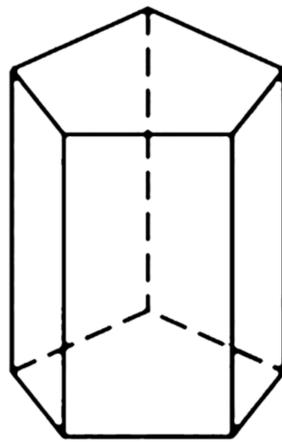

- Osserva le figure e completa la tabella.

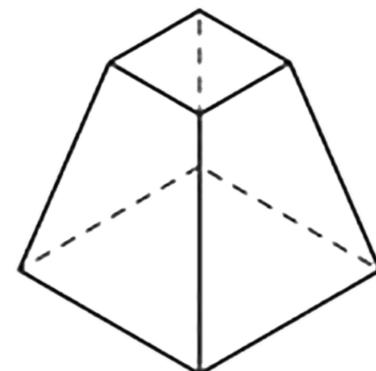

cubo

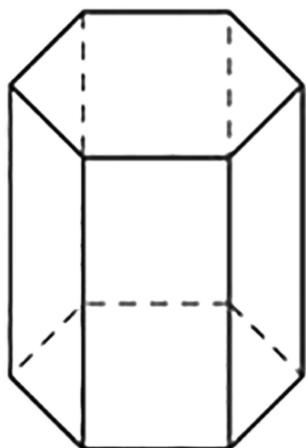

piramide quadrangolare

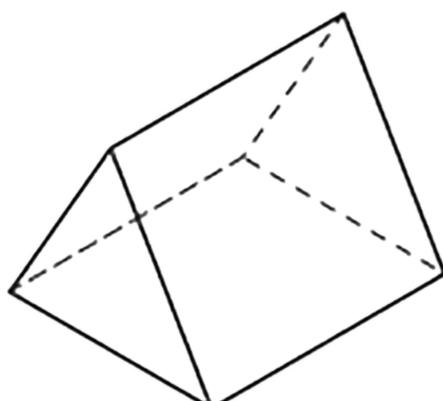

prisma pentagonale

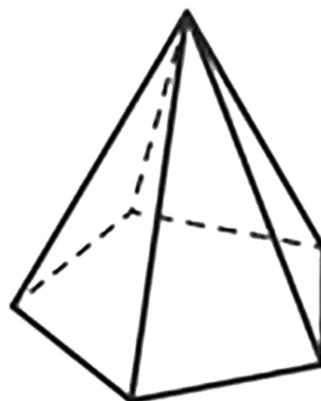

tronco di piramide

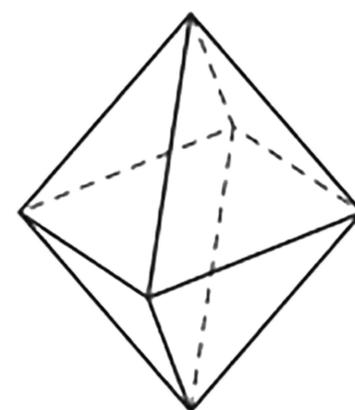

prisma esagonale

prisma triangolare

piramide pentagonale

ottaedro regolare

Poliedro	N. spigoli	N. vertici	N. facce	È un ...
cubo				esaedro
piramide quadrangolare				pentaedro
prisma pentagonale				ettaedro
tronco di piramide			
prisma esagonale				ottaedro
prisma triangolare			
piramide pentagonale			
ottaedro regolare			

I solidi geometrici

• Collega ogni solido con il suo sviluppo piano.
