

# La forma delle foglie

Le foglie hanno forma diversa. Possono essere:  
OVALI, ROTONDE, CUORIFORMI, LANCEOLATE, PALMATE,  
SAGITTATE, LINEARI e AGHIFORMI.

Sapresti individuare la forma delle foglie disegnate?

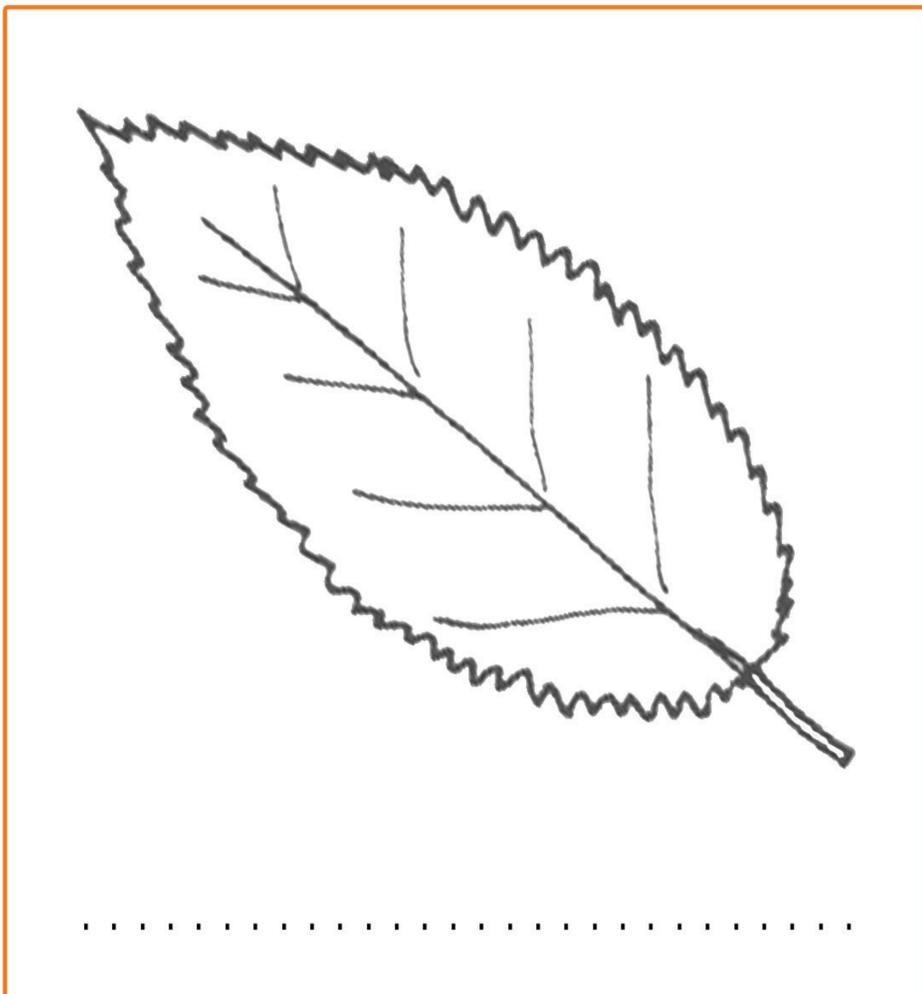

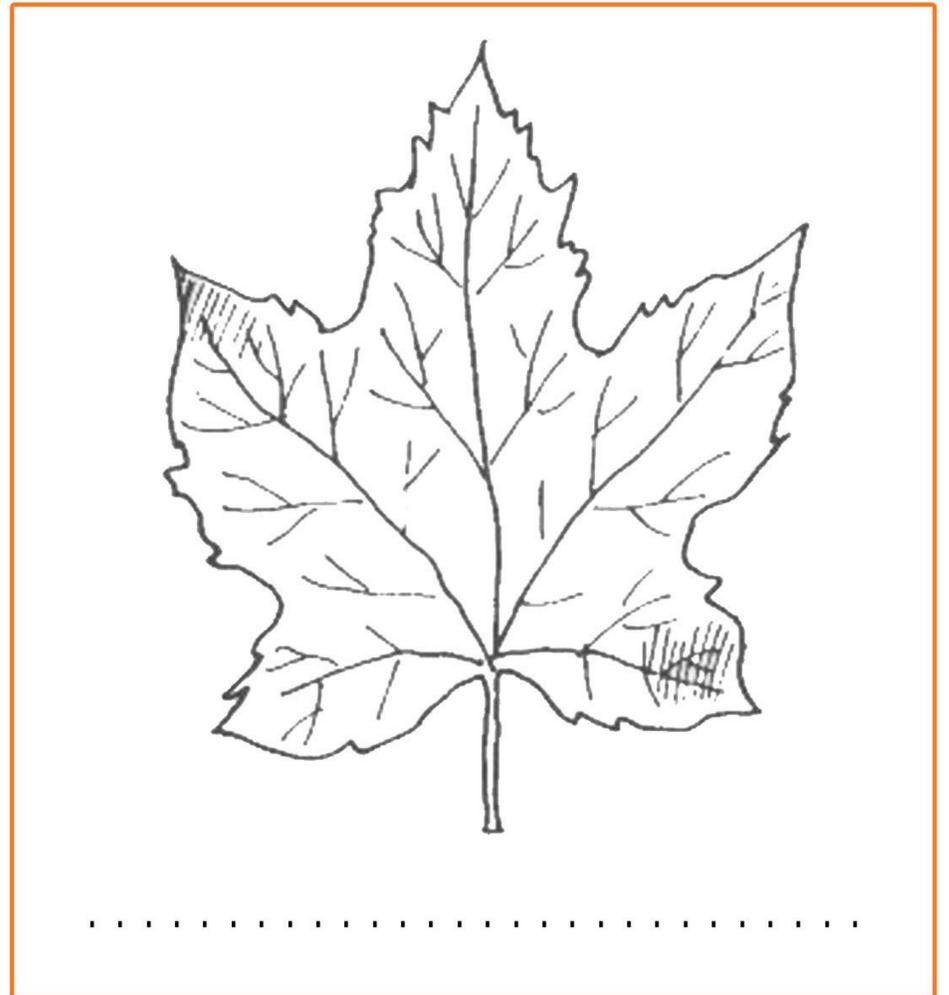

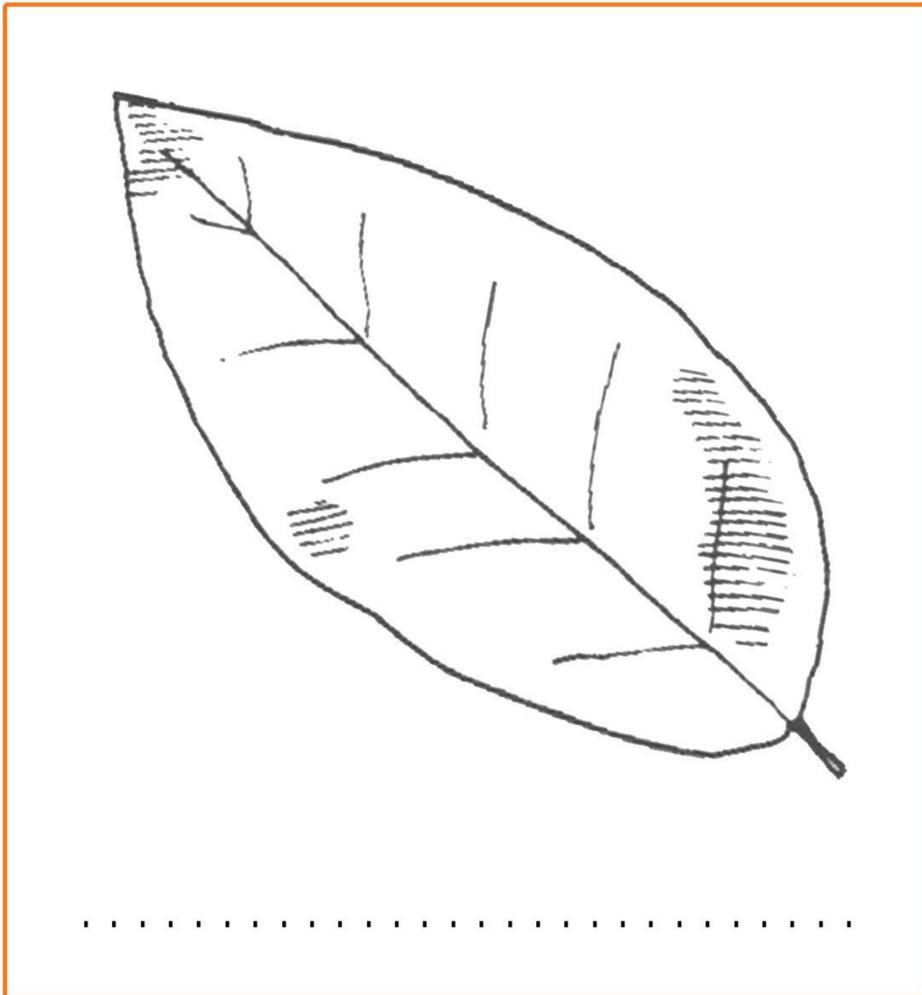

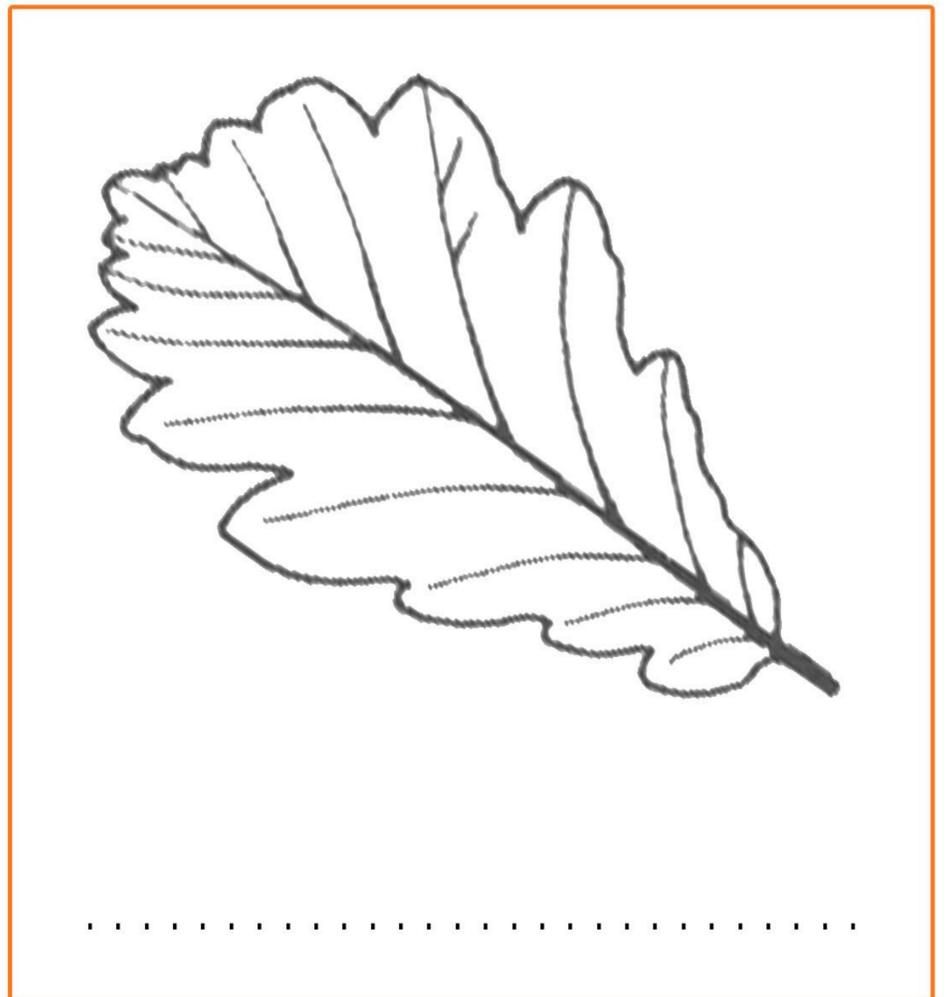

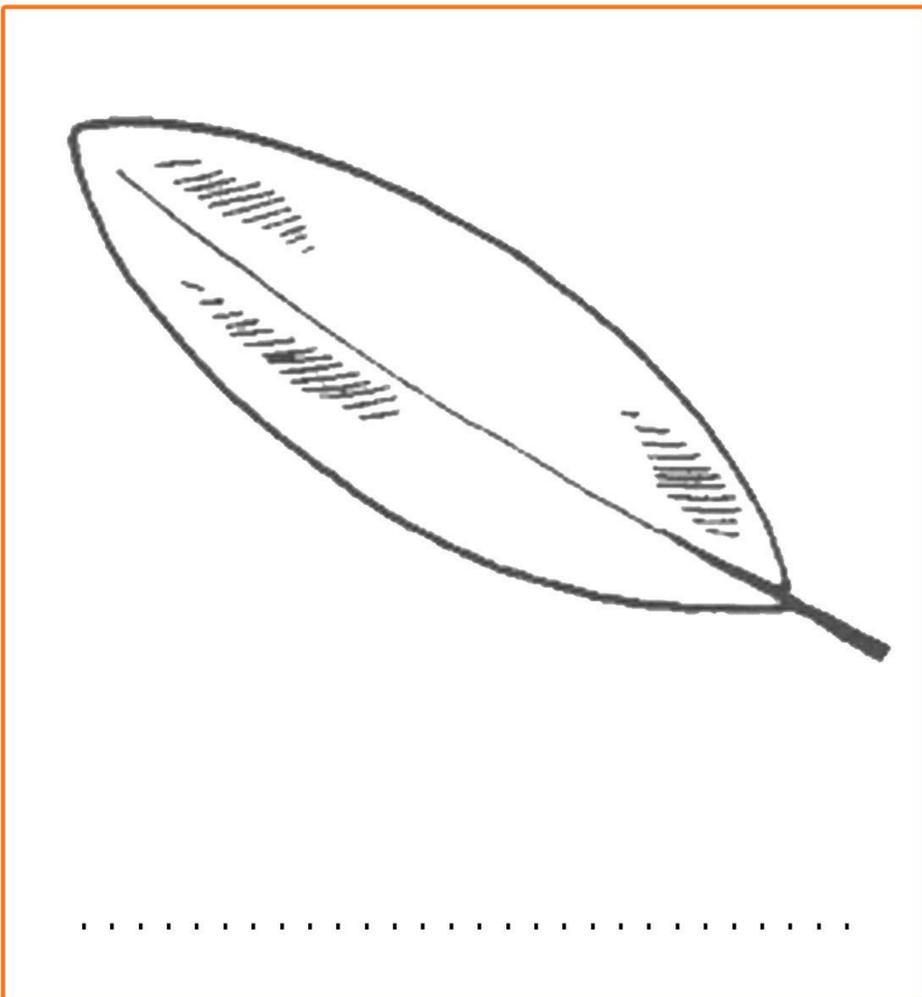

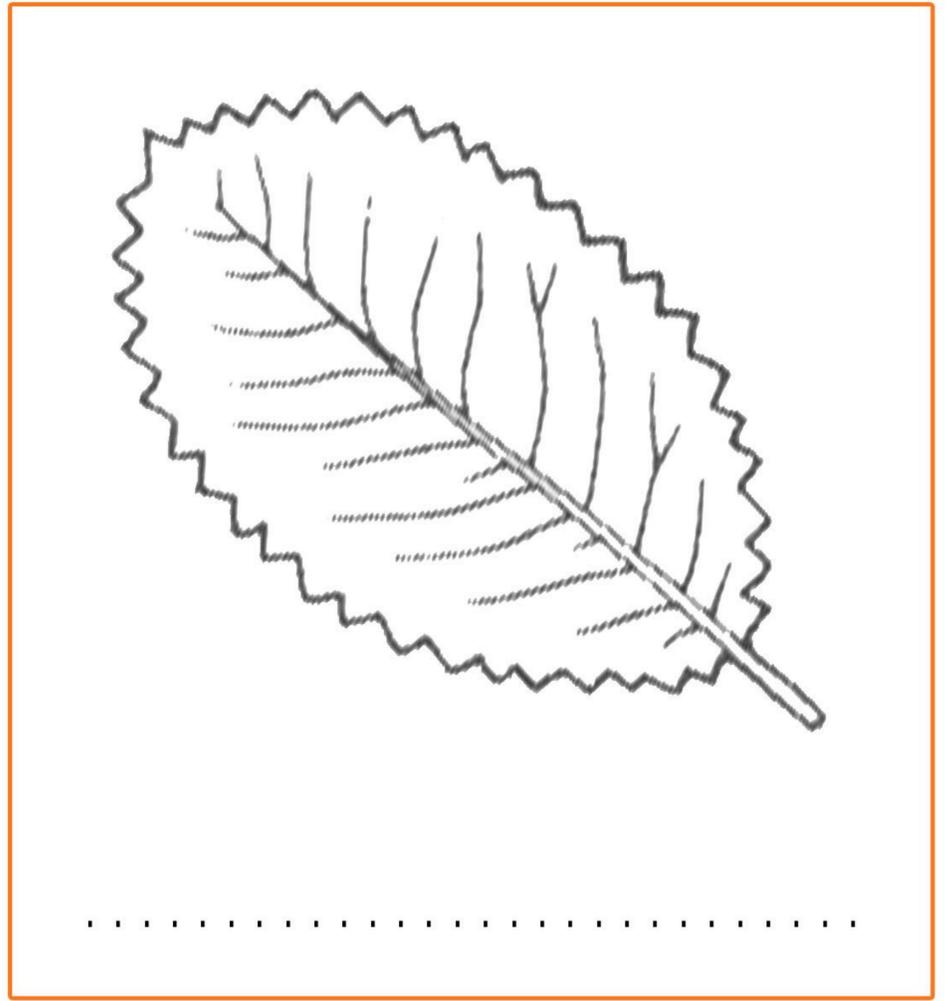

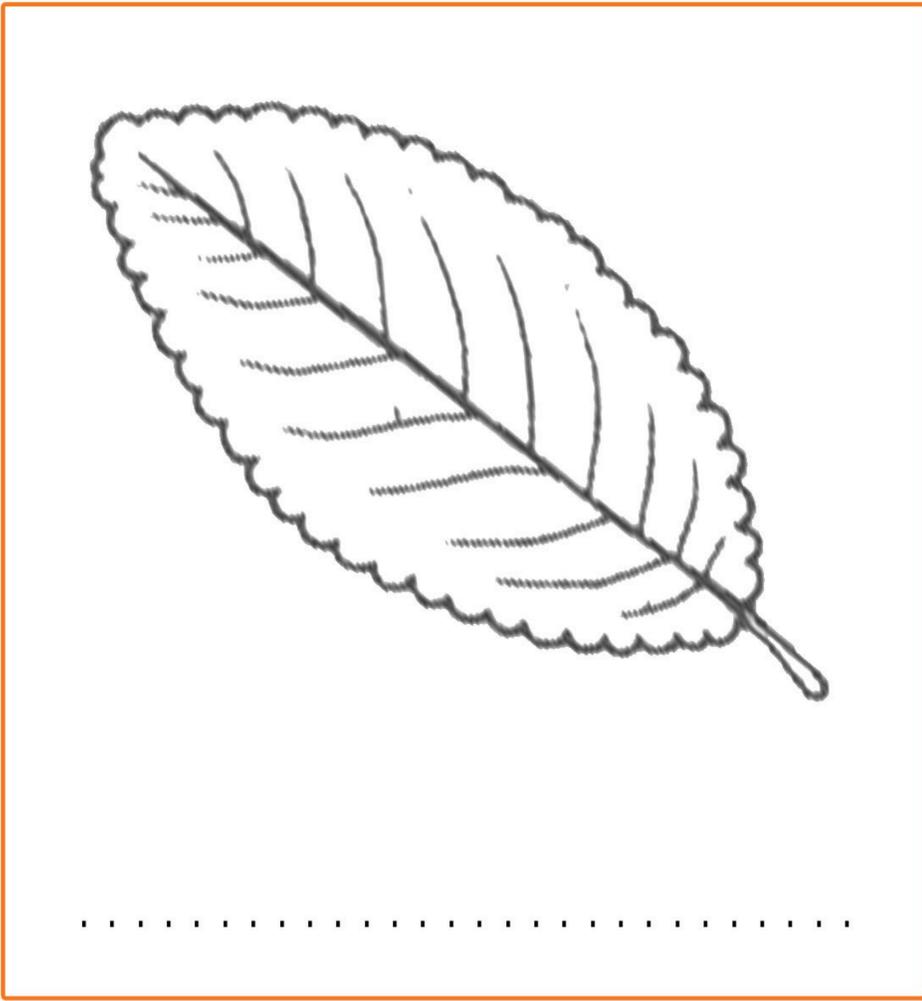

# Il margine delle foglie

Il margine delle foglie può essere:

SEGHETTATO, INTERO, DENTELLATO, LOBATO e CRENATO.

Scrivi il tipo di margine delle foglie disegnate:

# Sempreverdi e caducifoglie

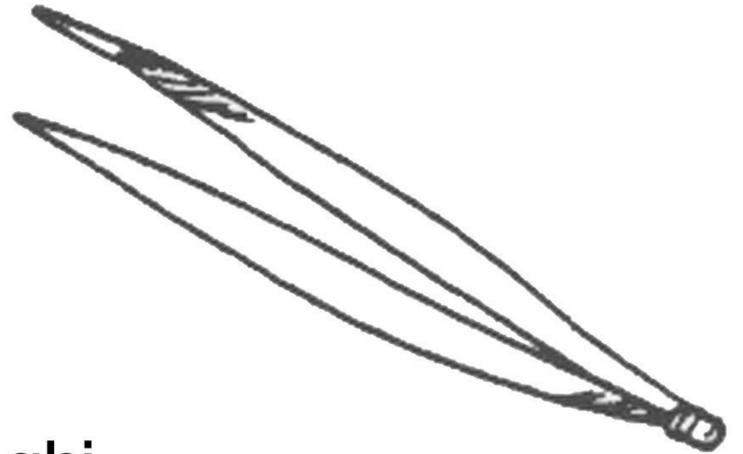

Le piante che mantengono le foglie anche durante l'autunno e l'inverno si chiamano sempreverdi, mentre quelle che le perdono si chiamano caducifoglie.

Scrivi se si tratta di foglie di piante **sempreverdi** o **caducifoglie**:

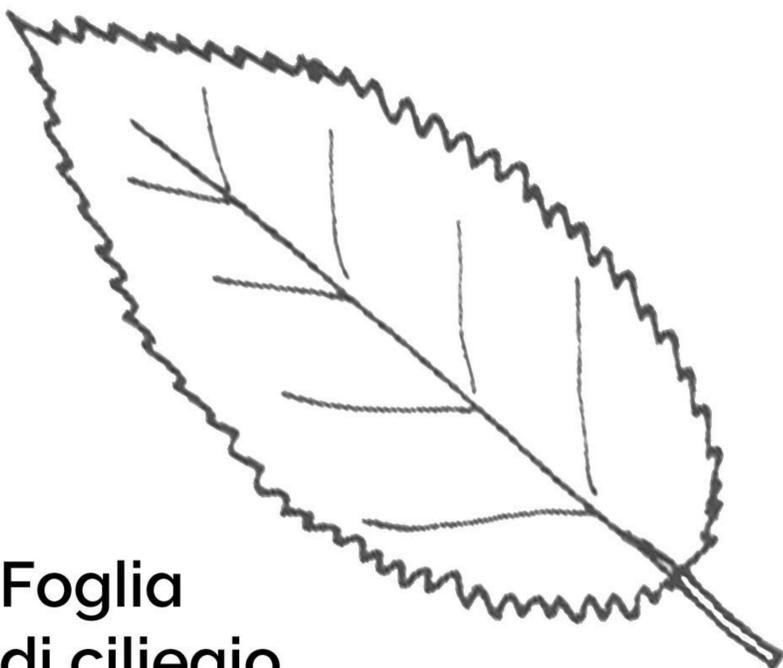

Foglia  
di quercia

.....

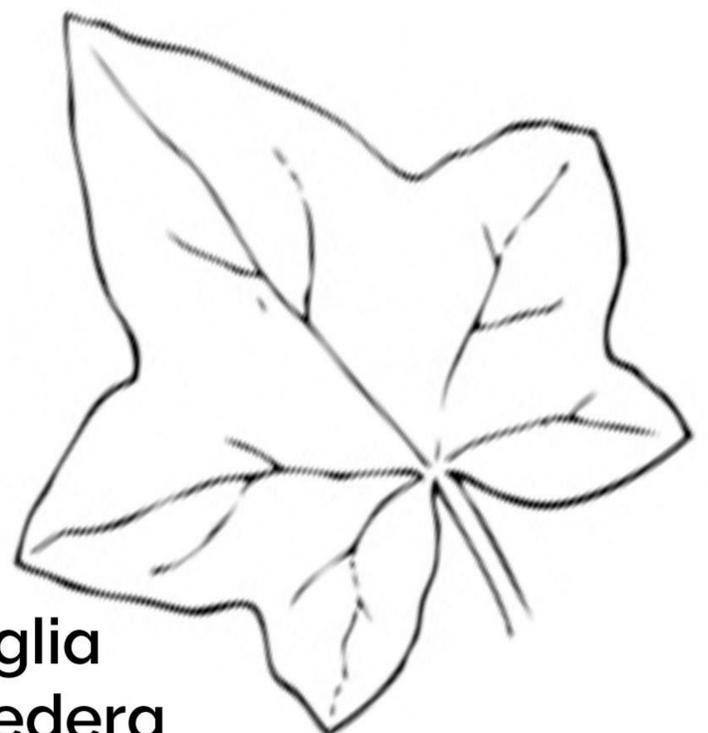

Aghi  
di pino

.....

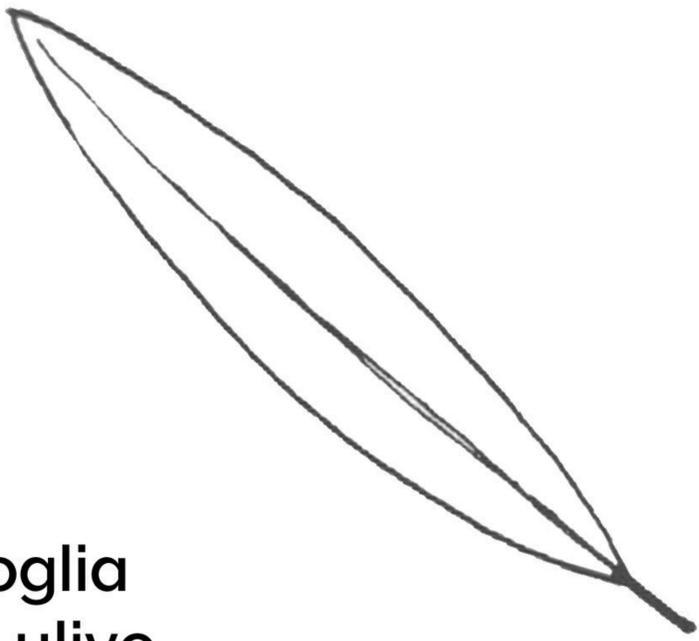

Foglia  
di ciliegio

.....

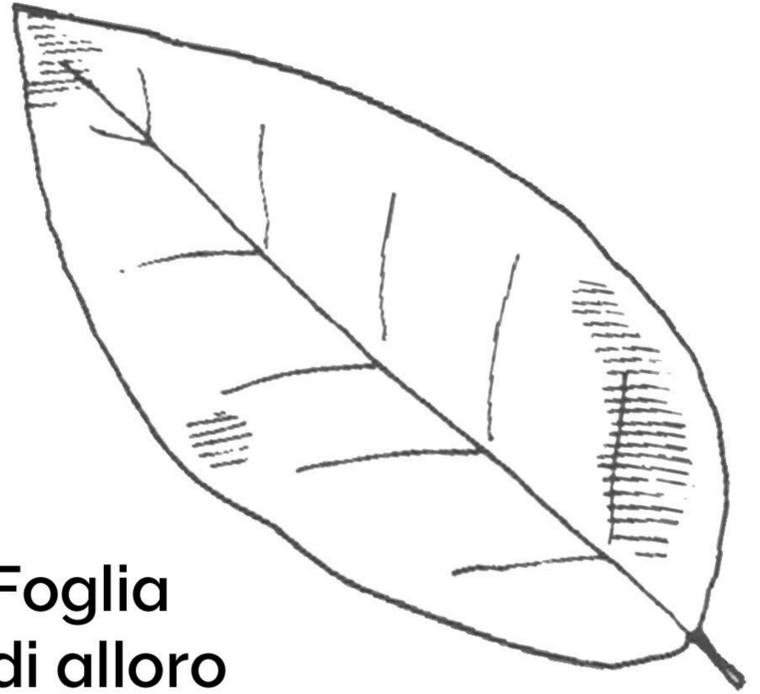

Foglia  
di edera

.....

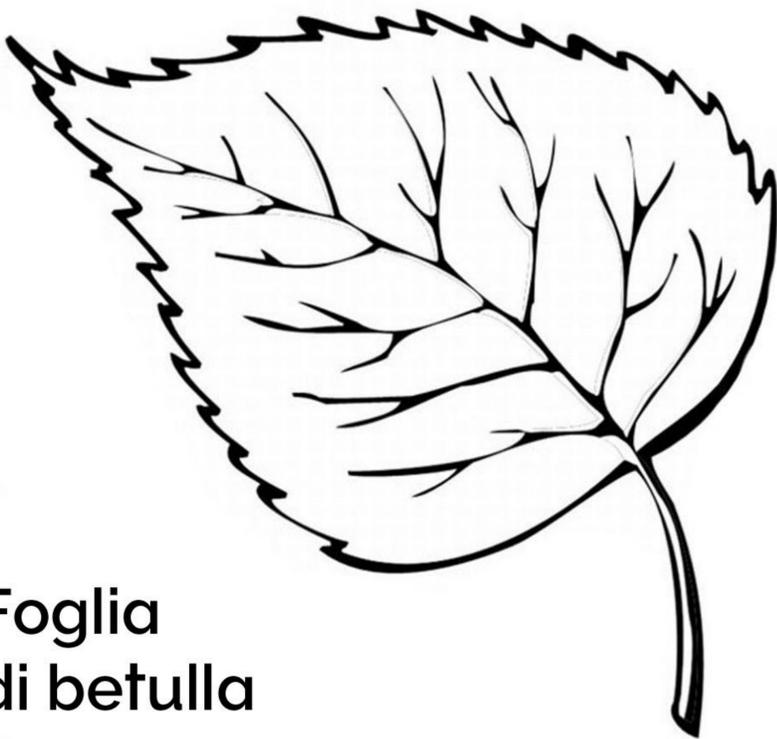

**Foglia  
di ulivo**

.....

**Foglia  
di alloro**

.....

**Foglia  
di betulla**

.....

**Foglia  
di acero**

.....
