# I vertebrati

- Collega ogni gruppo di vertebrati alla loro giusta definizione.

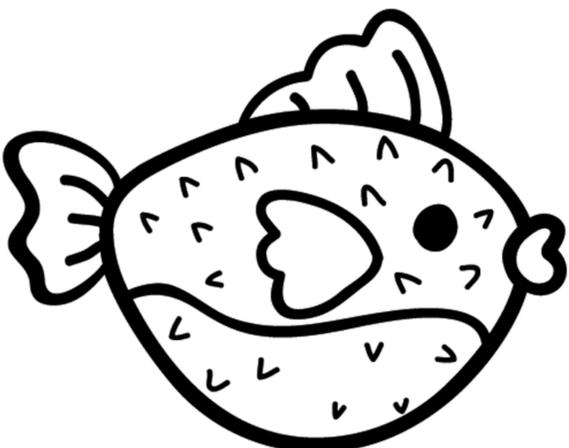

mammiferi

uccelli

rettili

anfibi

pesci

Hanno il corpo ricoperto di squame e depongono le loro uova sulla terraferma.

Vivono in acqua e respirano con le branchie. Hanno il corpo ricoperto di scaglie.

Hanno il becco e il loro corpo è ricoperto di penne e piume. Quasi tutti sanno volare.

Partoriscono e allattano i propri figli. Di solito il loro corpo è ricoperto di peli.

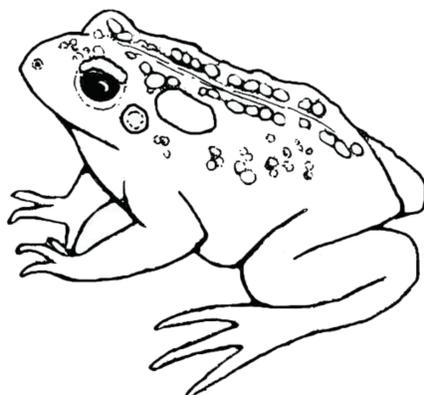

Possono vivere sia in acqua che fuori. Depongono le loro uova in acqua.

# I vertebrati

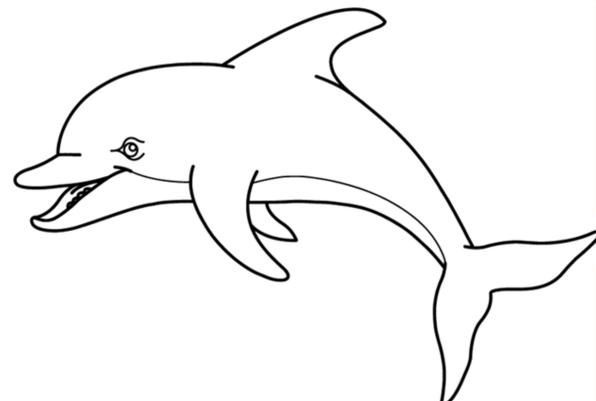

- Scrivi il nome e il gruppo di vertebrati (mammiferi, uccelli, rettili, anfibi o pesci) a cui appartiene ogni animale illustrato.
