cobra		anaconda	
caimano		anguilla	

# I rettili

## • Vero o falso?

- I rettili sono animali a sangue freddo.

 V  F

- La lucertola si muove strisciando.

 V  F

- Molti rettili non hanno le zampe.

 V  F

- Le tartarughe sono ricoperte da placche ossee.

 V  F

- La pelle dei rettili cresce insieme al loro corpo.

 V  F

- La muta è il processo con il quale i rettili cambiano pelle.

 V  F

- Tutti i rettili sono ovipari.

 V  F

- I rettili sono soprattutto carnivori.

 V  F

- Le vipere sono ovovivipari.

 V  F

- I rettili stanno spesso fermi al sole per rinforzare la pelle.
